

Beamz Consumer Video 2011

Voice Over:

Beamz Interactive presents...

The award winning Beamz Interactive music system

Imagine making music with laser beams...

Plug the beamz laser controller in to your PC.

Choose a song in the beamz player dashboard...

Break the path of a laser beam...

Trigger musical notes and sounds

Each beamz song is unique and setup with twelve different instruments or effects for you to play into a preset background rhythm track.

50 beamz songs are bundled to get you started and include songs with popular music videos for an extraordinary music making and music entertainment experience.

Interact with top hit and party favorites including songs by: Michael Jackson, Justin Timberlake, The Eagles, Billy Idol, Kool and the Gang, Blondie, 50 Cent, Gwen Stefani... and many more

Plus original content created for the Beamz by independent, Grammy nominated and Grammy award winning artists.

The Beamz song library is continually updated with new titles on the Beamz website.

People of all ages enjoy playing the Beamz.

Anyone can play...regardless of musical background or tastes.

Choose songs from all musical styles.

Record your Beamz performances... and share them with your friends.

With the Beamz Studio software you can also import songs from your personal

library into the beamz and play along.

And for the Pro - check out Beamz DJ.

This software works side by side with your pro DJ gear.

Use the Beamz as an interactive performance controller that wows audiences.

Inspire your inner rockstar or DJ

Play the Beamz.

Play the light!
