4-Way Power Charger

4-Way Power Charger (646596)

SUPER: 4-Way Power Charger

Hi, this is Michael at Brookstone.
Today I'm going to show you the
only charger you need to power your
handhelds four different ways.

SUPER: Charge from 4 different sources

With our 4-Way Power Charger,
you'll be able to charge your portable
electronic devices practically anywhere.

Charge your devices at home or at
The office using a standard wall plug

SUPER: Wall Plug

Charge on-the-go via a USB port on your
Laptop or other computer

SUPER: USB port

Works in a car, boat or other vehicle
Via the handy vehicle power socket

SUPER: Vehicle power socket

And it's so versatile, it can also charge your
Devices using just a 9-Volt battery

SUPER: 9-volt battery

SUPER: Works with iPod[®] and iPhone[®] devices, cell phones and smartphones

You can use the 4-Way Power Charger with your
iPod or iPhone device, most cell phone and smartphones,
including certain BlackBerry models.

SUPER: LED shows when connection is made

Ever wonder if your device is really charging?
The built-in LED light shows you when a
connection is made between your device and
the 4-Way Power Charger.

SUPER: Easy to store and carry

Our compact charger fits easily
in your carry-on, brief or handbag.
The cord even retracts into the charger
when not in use.

So be sure to take the 4-Way Power Charger from Brookstone on your next trip!
