

Sodastream Retail Narration 2:00

Introducing SodaStream, the revolutionary home soda maker that lets you turn water into fresh sparkling water and soda in seconds, with no clean-up!

Discover a smarter way to enjoy sparkling water and soda. No lugging bottles and cans from the store, no storage space needed and no empties to recycle or throw away.

SodaStream is truly earth friendly. It saves the average family over 2,000 bottles and cans from landfills each year...

...and the best part is – you save money every time you use it!

SodaStream is quick and easy to use. Fill SodaStream's BPA-free carbonating bottle with cold water,

Secure it to your Home Soda Maker

Then press the carbonating button a few times to add the fizz.

Enjoy your fresh glass of sparkling water...

...or pour SodaStream sodamix into the unique measuring cap, add the sodamix to the carbonating bottle and shake gently to create a refreshing glass of your favorite delicious Sodastream flavor.

SodaStream offers a wide variety of regular and diet sodamix flavors. Regular flavors have no high-fructose corn syrup, and diet flavors have no aspartame.

Mall outtakes

It's no wonder over 10 million SodaStream home soda makers have been sold in 35 countries and now SodaStream is getting rave reviews in the U.S.!

So stop lugging, storing and throwing away cans and bottles. SodaStream - A smarter way to enjoy sparkling water and soda!
