

iPad Portable Speaker/Stand
649194

*Super: Brookstone® Portable Speaker for iPad® Tablet
[made for iPad logo]*

Hi, this is Michael from Brookstone.
Today I'm going to show you the new
Brookstone® Portable Speaker for iPad tablets.
It holds my iPad tablet upright so I can work,
surf, and watch videos more comfortably.

Super: Built-in, powered speakers

It has two built-in, powered speakers that turn
my iPad tablet into true room-filling stereo system.

Super: Acoustically tuned speaker enclosure

The secret to its great sound is its acoustically
tuned speaker enclosure that brings out full,
rich bass and midrange tones.

Super: View in portrait or landscape mode

Two built-in stands let me use the iPad tablet
in portrait mode, or flip it to watch widescreen
movies and videos in landscape mode.

Super: Charges iPad tablet while docking

It also charges my iPad tablet while docking,
so I always have a full battery.

Super: Slim, portable—use it anywhere

Our portable speaker stand is slim and foldable, and
makes a great portable workstation for you
and your iPad tablet wherever you go.
