

UComfort Massage Chair

SUPER: Full-body massage at home

VO: Hi, I'm Mike at Brookstone. With the uComfort massage chair, you can come home to deep-kneading, full-body massage every night.

SUPER: Advanced body scanning

VO: Once you sit in down, rollers inside the chair glide along the length of your back in order to calibrate your massage to your body. uComfort then knows how to soothe and massage you in just the right spots

SUPER: 4 types of neck and back massage

VO: Lie back and enjoy as uComfort uses deep kneading, tapping and rolling massage to help relieve muscle tightness and fatigue in your back and neck.

Tight shot as man steps into chair and starts to recline chair

SUPER: Soothing airbag massage

VO: Something unique about uComfort is its soothing airbag massage, which helps relieve tension in your calves, ankles, seat and hips. Other massage chairs just vibrate your calves. uComfort squeezes them. It feels wonderful.

SUPER: Power recline and leg rest

VO: There's no need to pull levers or push yourself back into a comfortable position. Simply press a button and uComfort automatically reclines back or elevates the leg rest. And getting a great massage couldn't be easier.

SUPER: 3 automated full-body programs

SUPER: 6 targeted massage programs

VO: Just press one button to choose from from one of the pre-programmed full-body massages, or one of its targeted-area programs, each designed to soothe a specific area of your body like your shoulders, back or waist.

SUPER: Easy-to-use remote

VO: We know that some other massage chair remotes can be confusing, so we designed the uComfort remote to be super simple to use. It gives you fingertip control over all the chair's 9 automated massage programs, and also makes it easy to customize each massage to your liking.

Man picks up remote and pushes buttons

VO: The uComfort massage chair feels simply wonderful. Every time I get a massage in it, I feel more relaxed, refreshed and limber, all day long.

As chair returns to normal position, man gets up and walks off - shot of legs and feet only.
